12 April 2024

Whanganui Search & Rescue Inc
C/- 20 Fromont Street
Whanganui

Support from Whanganui Search and Rescue for the Land Search and Rescue NZ submission to the Horizons Regional Council Long-Term Plan 2024-34. By Horizons providing financial support to the seven Land Search and Rescue groups in the Horizons region. With the purpose for assistance with equipment, training and other operational expenses over and above what the national organisation can currently provide.

When we get a callout, Whanganui Land Search and Rescue volunteers, alongside members of the other six Land Search and Rescue groups within the Horizons region leave their workplaces, families, and social lives to respond. We assist the lost, missing, and injured across the Horizons region and pride ourselves on being “everywhere for everyone”. We don’t discriminate against any persons or situations, as long as it falls within our areas of expertise so that our volunteers can also return home safely.

Our Whanganui volunteers collectively commit hundreds of hours a year to attend both nationally run and monthly local training sessions to ensure we are best skilled to serve our community in our local environments. In the past 12 months alone, we have participated in searches across the Horizons region ranging from farmland to backcountry bush to urban environments to coastline in a whole spectrum of scenarios (lost trumper, injured hunter, body recovery, lost diver, missing elderly person).

There are a lot of costs associated with keeping our members fully equipped and providing operational and administrative support so we can run a professional and effective group. For example, hiring a training space, providing reimbursements for volunteers to attend trainings and important meetings that are not funded, equipment for administration. While we do receive national funding, this does not cover all our expenses, and we strongly feel that lack of individual financial resources should not be a barrier for volunteering for Land Search and Rescue.

Thus, we would like to ask the community that we serve to help support us - we really do fill a gap in our region that could not be easily or effectively filled by other agencies. A financial contribution from the Horizons Regional Council would help to provide us with additional financial support and security so we can ensure that we can continue to offer our best services to our community.

There is an acknowledgement that Horizons Regional Council faces many challenges in a post Covid environment. A modest contribution from ratepayers will support the efforts of community-based emergency services volunteers, it will support the provision of a safety net and continue to generate positive and tangible benefits for our communities, residents and visitors.

Thank you for your consideration.

Regards

Elly Arnst - Chair – Whanganui Search & Rescue Inc.

Q1

Long Text

Summarised contents/sentiment:

Don't believe public transport should be a high priority given the number of rural rate payers that get no benefit/do not use this service

Q2

Multi Choice

Which option do you prefer?

Option 2 (council's preferred option): Targeted mapping focussing on areas where there is urban growth pressure and/or demand for rural lifestyle subdivision.

Q3

Long Text

Summarised comments/sentiment:**Which option do you prefer?**

Q4

Multi Choice

Option 2: Do not fund work programme for integrated catchment management.

Summarised comments/sentiment:

Q5

Long Text

Which option do you prefer?

Q6

Multi Choice

Option 2: Claim up to \$200 million per event by Horizons.

Summarised comments/sentiment:

Q7

Long Text

Which option do you prefer?

Q8

Multi Choice

Option 1 (council's preferred option): Return to baseline levels of service and budget 30 kilometres of fencing and 70,000 plants.

Summarised comments/sentiment:

Q9

Long Text

Do not believe at this time farmers have the funds to fund their portion of these projects so think there will be less area fenced and planted as a result event with funding and grants recieved from Horizons. If that's the case it seems silly to spend extra money on new roles at this time.

Which option do you prefer?

Q10

Multi Choice

Option 3: Remain with current service levels.

Summarised comments/sentiment:

Q11

Long Text

Which option do you prefer?

Q12

Multi Choice

Option 2: Levin-only public transport services.

Summarised comments/sentiment:

Q13

Long Text

Levin only would be best value for money. Do not agree with spending more than necessary in the current economic climate

Which option do you prefer?

Q14

Multi Choice

Option 2: New and improved regional services (smaller scale)

Q15 Summarised comments/sentiment:

Long Text Smaller scale as don't believe it will be well utilised.

Q16 Which option do you prefer?

Multi Choice Option 1 (council's preferred option): Changing fee structure for water meters to 100% user pays.

Q17 Summarised comments/sentiment:

Long Text User Pays for this service seems to be the fairest measure

Q18 Summarised comments/sentiment:

Long Text I believe the status quo should remain for the investment income. Whilst it benefits those with properties of a higher capital value the most, it is also these properties who pay more in rates. The majority of these properties are rural and whilst they have high capital values actually generate no more in income than they did prior to their CVs rising. It becomes a matter of affordability.
The River and drainage scheme - status quo of and 80/20 split seems fair.

Option 3: Targeted mapping focussing on land surrounding all existing urban areas (cities, towns, villages).

Summarised comments/sentiment:

Q3

Long Text

Too much valuable agricultural land has already been lost to urban sprawl. Therefore mapping of ALL land around existing urban areas is required.

Which option do you prefer?

Q4

Multi Choice

Summarised comments/sentiment:

Q5

Long Text

The whole integrated catchment approach makes sense, water flows from the land through streams to rivers and to the sea.

The Te Awa Tupua Act supports the indivisible nature of the whenua and our freshwater. This legislation must be taken into consideration.

Therefore, we support a whole integrated catchment, holistic approach to the management of our freshwater, environment and coastal areas.

We know that you cannot deal with the end point results of water pollution without looking to all sources of contamination of the whenua and water.

Which option do you prefer?

Q6

Multi Choice

Option 1 (council's preferred option): Include baseline inflation, revaluations, claim up to \$200 million per event by Horizons and up to \$500 million alongside other councils.

Summarised comments/sentiment:

Q7

Long Text

We support option 1. Increasing numbers, and frequency of disaster events requires revaluation and the ability to make increased claims.

Which option do you prefer?

Q8

Multi Choice

Option 3: A target of 110 kilometres of fencing and 240,000 plants plus two staff members.

Summarised comments/sentiment:

Q9

Long Text

We support option 3, 110 Km fencing, 240,000 plants and two staff.

Having just acknowledged in #3 the importance of a whole catchment approach, then the maximum inputs to this area is required.

Other options may save money in the short term but will then require more finances in the long term. The longer streams are left unfenced the more polluted a stream becomes.

There are still many areas needing streams fenced and their riparian areas planted. Volunteer catchment groups should be supported to complete these activities.

Which option do you prefer?

Q10

Multi Choice

Option 1 (council's preferred option): Whanganui public transport improvements running by the end of 2025-26.

Summarised comments/sentiment:

Q11

Long Text

We support option 1, increased levels of public transport for Whanganui.

Especially the expansion of "The Tide" bus service. We have observed that this bus service is very valuable, not only to us, but to many others less mobile, many who need walkers or trollies, and rangitahi from our local kura.

We see people catch the bus at the outer Castlecliff stop to travel to Castlecliff 4-Square or to Gonville Shopping Centre, library, and health services. Others from within Gonville suburb travel to these local services or into town. Making return trips with groceries and purchases.
On a personal basis Graham found the Tide wonderful on a Saturday when his bike had a flat tyre while at the riverside market. Being able to load his bike on the bus carrier quickly got him back to Castlecliff & home.

Q12 Which option do you prefer?

Multi Choice Option 1 (council's preferred option): Wider Horowhenua district, including Levin.

Q13 Summarised comments/sentiment:

Long Text We support option 1. Rural NZ needs improved services , so these should not be restricted to just Levin. Having lived in Tokomaru most of our lives we know how isolated small rural communities can feel.

Q14 Which option do you prefer?

Multi Choice Option 1 (council's preferred option): New and improved regional services.

Q15 Summarised comments/sentiment:

Long Text We support option 1. Regular bus transport that connected with Wellington's rail and bus services would enable us to visit Wellington's facilities and relatives and go to the international airport, without needing to find and pay for car parking.
We know others that would use such services and are waiting with anticipation for these services to really connect. Linking Whanganui more effectively with Palmerston North would benefit many people, making it easier for all to visit friends and family.
We believe providing this better public transport infrastructure is a positive step towards reducing fossil fuel emissions.

Q16 Which option do you prefer?

Multi Choice Option 1 (council's preferred option): Changing fee structure for water meters to 100% user pays.

Q17 Summarised comments/sentiment:

Long Text We support option 1.

Q18 Summarised comments/sentiment:

Long Text We recognise the increasing burden on rate payers of recent events and increased deliveries required.
We are glad to see Horizon's reviewing these policies to try and bring equality where possible across the wide range of tasks it is required to undertake.

Q19 Give us your thoughts:

Long Text Coastal activities
We thank Horizons for their support of Castlecliff Coast Care and Nga Ringaringa Waewae and North Mole developments. These coastal areas provide great recreation, fish to feed local families and now increasing biodiversity.
Consideration should be given to having a Horizon's staff member as a Coast Care coordinator. A person who could support and assist the many community groups that are active in this coastal space.
Many other regional councils finance such a position, we regularly meet them at the Coastal Restoration Trust of NZ conferences, but no Horizon or WDC staff have attended any conferences outside Whanganui. The registration fee is not huge.

AFFCO plant Whanganui
As a regular attendee of the AFFCO annual Community Linking meetings, it was good to be advised at this year's meeting that Horizons is prosecuting AFFCO over the many foul smells experienced by local residents during the 2022/23 summer. Processing "out of spec" raw product (ie rotting offal) was an extremely poor decision by AFCFO senior management which needed to be addressed.
Hopefully Horizon's prosecution will ensure AFFCO will not process such material again.

Q1

Long Text

Summarised contents/sentiment:

The cost of the new buses in Palmerston North was \$40 million - what is the value of this back to the rate payer?
 Did we get asked if we wanted electric buses?
 No one is using the buses they are continually empty
 Horizons offered a month of free bus rides what is the value proposition for this?
 I understand Horizons give away free bus rides away to school children from 9am to 3pm? Why is this? Shouldn't they be at school at this time?
 Shouldn't this electric bus project been phased over a period of time instead there is a cost to us of \$40 million?
 This seems to be another councils vanity project !

Have your say! Our consultation document highlights specific areas of our business that we are seeking community feedback on. We also welcome feedback on any other areas of our business and have left space on page 7 for additional comments. The information that supports the consultation document is available at haveyoursay.horizons.govt.nz, our service centres and local libraries.

An electronic version of this form can be found at haveyoursay.horizons.govt.nz.

Please include your name, main contact phone number, full address, postcode, and email address on the last page of this form, and indicate whether you would like to speak to your submission (in either English, Māori or New Zealand Sign Language) at a Council Hearing between 29 April 2024 and 2 May 2024.

Note: submissions are public information and will be published in the resulting Council report which may be made available to media and the general public. Contact details will be kept confidential.

1 Te anga rautaki Strategic Framework

Our strategic framework outlines our vision, four strategic priorities and six community outcomes which will help us keep our eye on the big picture, especially when planning for the ten years ahead. We welcome your feedback on our strategic framework which has been shared in detail on page 6 of the consultation document.

Summarised comments/sentiment:

I know where i've been - Past.

" " " I am - Present.

" " " " " going - Future.

One can only be judged by one's Past and Present achievements and or one's non-achievements. The Strategic Framework of the Consultation document at page six, in reference to Horizon's 'vision', 'strategic priorities' and 'Community outcomes', are just Pie in the sky wishfull thinking only. That does not place bread and butter on the table.

HAVE
YOUR SAY

For the following items, please tick the box that best suits your preference.

Issue 1: Responding to legislative requirements – level of service for highly productive land

For more information on this topic, refer to page 26 of the consultation document.

Option 1

Targeted mapping focussing on acute urban growth pressure areas only.

Option 2 - Council's preferred option

Targeted mapping focussing on areas where there is urban growth pressure and/or demand for rural lifestyle subdivision.

Option 3

Targeted mapping focussing on land surrounding all existing urban areas (cities, towns, villages).

Summarised comments/sentiment:

If Horizons is going to a job, do it properly and professionally without high paid consultants and mate-rates involved.

426

Issue 2: Planning for the future

For more information on this topic, refer to page 29 of the consultation document.

Option 1 - Council's preferred option

Fund work programme for integrated catchment management.

Option 2

Do not fund work programme for integrated catchment management.

Summarised comments/sentiment:

Not with Plastic Mana Munching Maori, who don't know what they are doing!

11

Additional comments:

Along with the issues we have listed above, we welcome your feedback on all areas of our business.

* The HOKIO STREAM IN the Horowhenua district:

Silt, sediments, phosphorous and nitrates from the

intensive market gardens going into both the

Patiki and Arawhata Streams, flowing into

Lake Horowhenua, then making it's way

through the Fish pass on the Hokiio Stream.

All that molecules feeds the prolific Water

Celery plant. Various notification/complaints

have been made to Horizons RC about the

dangerous situation flowing through the

Hokiio Beach Township. Not seriously taken notice of?

* Why isn't Horizons Regional Council taking

the Horowhenua District Council to Court for the

Continuing ongoing breaches of the Resource

Consent Conditions of the Levin Landfill NLG?

* The Arawhata Conservation Bush - Hokiio

Beech Road: Prolific Opposum Breeding

ground, Old Man's Beard and Deer within!

For the following items, please tick the box that best suits your preference.

10

Revenue and Financing Policy

Council is proposing some changes to the way it funds some of its activities and to how it uses revenue from its investment activity. Examples of this include changes to the Uniform Annual General Charge (UAGC) and the funding model for Horizons' 11 river and drainage schemes. Please share your thoughts with us on our changes to the Revenue and Financing Policy.

For more information on this issue, refer to page 47 and 48 of this document and page 247 of the Supporting Information.

Summarised comments/sentiment:

Horizon's proposed funding model for 11 river and drainage schemes, is an enforced 'Mafia' strategy and tactical ethos on those of us not affected, to help its farming and intensive market gardening MATES. It also shows that Horizons Regional Council does not comprehend and has a lack of understanding how Mother Nature functions. Open your eyes to see what's happening around the world and in this country when mankind tampers and try's to control Mother Nature. It just does not work. The Territorial Authorities were useless and hopeless up at Auckland and the East Coast, WERE THEY NOT? So why those of us not affected be enforce to pay for something we do not agree on ???

For the following items, please tick the box that best suits your preference.

4

Issue 3a: Updates to our operational areas – increase to river management insurances

For more information on this topic, refer to page 32 and 33 of the consultation document.

Option 1 - Council's preferred option

Include baseline inflation, revaluations, claim up to \$200 million per event by Horizons and up to \$500 million alongside other councils.

PREFERRED
OPTION

Option 2

Claim up to \$200 million per event by Horizons.

Option 3

Claim up to \$500 million per event alongside other councils.

Option 4

No change in insurance level cover, covers inflation and revaluations only.

Summarised comments/sentiment:

It all depends on whose who in the zoo. Territorial Authorities were huge failures up in the East Coast, weren't they?

5

Issue 3b: Updates to our operational areas – reduced levels of service for freshwater activity

For more information on this topic, refer to page 34 and 35 of the consultation document.

Option 1 - Council's preferred option

Return to pre-Jobs for Nature funding levels of service and budget 30 kilometres of fencing and 70,000 plants.

PREFERRED
OPTION

Option 2

A target of 80 kilometres of fencing and 160,000 plants plus one staff member.

Option 3

A target of 110 kilometres of fencing and 240,000 plants plus two staff members.

Summarised comments/sentiment:

So long as they know what they are doing. See comments at (3) Issue 2
← Option 1.

For the following items, please tick the box that best suits your preference.

6

Issue 3c: Updates to our operational areas – increased levels of service for public transport – Whanganui improvements

For more information on this topic, refer to page 36 and 37 of the consultation document.

Option 1 - Council's preferred option

Whanganui public transport improvements running by the end of 2025-26.

PREFERRED
OPTION

Option 2

Whanganui public transport improvements staged, full implementation by 2028-29.

Option 3

Remain with current service levels.

Summarised comments/sentiment:

N/A as seems to be Mates Rates.

7

New services for Horowhenua

For more information on this topic, refer to page 38 and 39 of the consultation document.

Option 1 - Council's preferred option

Wider Horowhenua district.

PREFERRED
OPTION

Option 2

Levin only public transport services.

Summarised comments/sentiment:

Time will tell, or is this just buttering up the Communities Beaches of Waitarere, Hokiia, and Waikawa, to look and sound good?

For the following items, please tick the box that best suits your preference.

8

New and improved regional services

For more information on this topic, refer to page 40 and 41 of the consultation document.

Option 1 - Council's preferred option

New and improved regional services.

PREFERRED
OPTION

Option 2

New and improved regional services (smaller scale).

Summarised comments/sentiment:

If somethings got to be actioned, do it properly and professionally at minimal costs, to the rate-payers. eg;
3 ways to skin a Rat.

9

Issue 4: Changing fee structure for water meters

For more information on this topic, refer to page 42 and 43 of the consultation document.

Option 1 - Council's preferred option

Changing fee structure for water meters to 100% user pays.

PREFERRED
OPTION

Option 2

Continue to fund water meters from the Science budget.

Summarised comments/sentiment:

The question I ask is this Commercial Development for the Rural Farming Community? If so, the rest of us rate-payers should not to be forced to subsidise that (scheme) Age?

Te anga rautaki Strategic Framework

Our strategic framework outlines our vision, four strategic priorities and six community outcomes which will help us keep our eye on the big picture, especially when planning for the ten years ahead. We welcome your feedback on our strategic framework which has been shared in detail on page 6 of the consultation document.

Summarised comments/sentiment:

Climate Change with Floods/Slips Wash out should
be priority.
Stormwater Run-offs / Drain clean outs as
sediment has filled in Stream/River channels.

For the following items, please tick the box that best suits your preference.

2 Issue 1: Responding to legislative requirements – level of service for highly productive land

For more information on this topic, refer to page 26 of the consultation document.

Option 1

Targeted mapping focussing on acute urban growth pressure areas only.

Option 2 - Council's preferred option

Targeted mapping focussing on areas where there is urban growth pressure and/or demand for rural lifestyle subdivision.

Option 3

Targeted mapping focussing on land surrounding all existing urban areas (cities, towns, villages).

PREFERRED
OPTION

Summarised comments/sentiment:

3 Issue 2: Planning for the future

For more information on this topic, refer to page 29 of the consultation document.

Option 1 - Council's preferred option

Fund work programme for integrated catchment management.

Option 2

Do not fund work programme for integrated catchment management.

PREFERRED
OPTION

Summarised comments/sentiment:

Cur data - hazardous or not be recorded

Climate Change will also have a huge affect on results of any activity.

11

Additional comments:

Along with the issues we have listed above, we welcome your feedback on all areas of our business.

There needs to be more 'hi-a-mi' with
wapon or community for transparency.

People need to know what the Reality
of situations! are!

Shared Information - Hazard Data
needs to be included!

Not like LAWA - which only say
A,B; C or D - The worst / Lowest rate.
But doesn't say How rotten the water
has become. eg The Leachate from Toxic
Leachate Pond at Levin 'handfill' Hoki Beach

Rd-Hoki/Levin	Results
Ammonia Nitrogen	1600 (± 160) mg/l 0.01
pH	7.8 (± 0.2) 0.1 etc;etc

30 Tested Exceedances - Stantec Report 22/12/2023
HDC - Permit Holder - Horizons' Regulator of Resource Consent
Monitors BUT NO PENALTIES For poisoning community.

For the following items, please tick the box that best suits your preference.

10

Revenue and Financing Policy

Council is proposing some changes to the way it funds some of its activities and to how it uses revenue from its investment activity. Examples of this include changes to the Uniform Annual General Charge (UAGC) and the funding model for Horizons' 11 river and drainage schemes. Please share your thoughts with us on our changes to the Revenue and Financing Policy.

For more information on this issue, refer to page 47 and 48 of this document and page 247 of the Supporting Information.

Summarised comments/sentiment:

No Coastal Care plan has been approved.
I noticed One Plan has not been
reviewed for 10 years!
Except for Electricity generation. - Horizon
Feb 13 2024 - Strategy & Policy Committee.

For the following items, please tick the box that best suits your preference.

4

Issue 3a: Updates to our operational areas – increase to river management insurances

For more information on this topic, refer to page 32 and 33 of the consultation document.

Option 1 - Council's preferred option

Include baseline inflation, revaluations, claim up to \$200 million per event by Horizons and up to \$500 million alongside other councils.

Option 2

Claim up to \$200 million per event by Horizons.

Option 3

Claim up to \$500 million per event alongside other councils.

Option 4

No change in insurance level cover, covers inflation and revaluations only.

Summarised comments/sentiment:

5

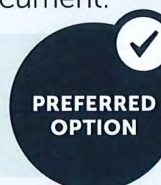

Issue 3b: Updates to our operational areas – reduced levels of service for freshwater activity

For more information on this topic, refer to page 34 and 35 of the consultation document.

Option 1 - Council's preferred option

Return to pre-Jobs for Nature funding levels of service and budget 30 kilometres of fencing and 70,000 plants.

Option 2

A target of 80 kilometres of fencing and 160,000 plants plus one staff member.

Option 3

A target of 110 kilometres of fencing and 240,000 plants plus two staff members.

Summarised comments/sentiment:

Maintaining or cleaning up freshwater
is the priority.

For the following items, please tick the box that best suits your preference.

6

Issue 3c: Updates to our operational areas – increased levels of service for public transport – Whanganui improvements

For more information on this topic, refer to page 36 and 37 of the consultation document.

☐

Option 1 - Council's preferred option

Whanganui public transport improvements running by the end of 2025-26.

PREFERRED
OPTION

☐

Option 2

Whanganui public transport improvements staged, full implementation by 2028-29.

☐

Option 3

Remain with current service levels.

Summarised comments/sentiment:

7

New services for Horowhenua

For more information on this topic, refer to page 38 and 39 of the consultation document.

☒

Option 1 - Council's preferred option

Wider Horowhenua district.

PREFERRED
OPTION

☐

Option 2

Levin only public transport services.

Summarised comments/sentiment:

long overdue!

For the following items, please tick the box that best suits your preference.

8

New and improved regional services

For more information on this topic, refer to page 40 and 41 of the consultation document.

☒

Option 1 - Council's preferred option

New and improved regional services.

PREFERRED
OPTION

☐

Option 2

New and improved regional services (smaller scale).

Summarised comments/sentiment:

9

Issue 4: Changing fee structure for water meters

For more information on this topic, refer to page 42 and 43 of the consultation document.

☐

Option 1 - Council's preferred option

Changing fee structure for water meters to 100% user pays.

PREFERRED
OPTION

☐

Option 2

Continue to fund water meters from the Science budget.

Summarised comments/sentiment:

Hopefully this method encourages people to use less water- Not more.

Which option do you prefer?

Q4

Option 1 (council's preferred option): Fund work programme for integrated catchment management.

Multi Choice

Summarised comments/sentiment:

Q5

Because the status quo seems to be less flexible to being able to respond to climate change option 1 (preferred option) is the only realistic choice.

Long Text

Which option do you prefer?

Q6

Option 1 (council's preferred option): Include baseline inflation, revaluations, claim up to \$200 million per event by Horizons and up to \$500 million alongside other councils.

Multi Choice

Summarised comments/sentiment:

Q7

Insurance cover is important but like all households councils too seem to be having to make difficult decisions based on the double pressures of assets inflating and insurance costs skyrocketing. Option 1 looks to be a fair and reasonable risk approach, accepting that if the worst happened there would be other funding over and above insurance payouts to be required and as yet undetermined.

Long Text

Q19	Give us your thoughts:
Long Text	As the Regional Economic Development Agency for Manawatu CEDA appreciates the continued support of HRC and A25 in positioning the region for economic success. There will be times when a wider regional view is helpful in that. Having joined up thinking, a common logic, and shared key messages that remain on point and aligned is critical. We look forward to continuing to work on key areas of work together such as Te Apiti Gorge and its future for visitors, and Te Utanganui- The Central NZ Distribution Hub.

Q1

Long Text

Summarised contents/sentiment:

We need more housing. Our area is in high demand for housing and we are not allowed to develop our land to accommodate up to 12 more properties because it is deemed class 2 highly productive land. It is not highly productive. We have to put literally tonnes of fertiliser on our property to grow anything. It is historic river land as seen by the sheer amount of rocks in it. Under the current rules, we have to pay for the pleasure to prove that it is not highly productive land. That in itself is ridiculous. We have asked the MDC as part of their consultation and we will ask you as well - work towards removing this ban to develop land.

Which option do you prefer?

Q2

Multi Choice

Option 2 (council's preferred option): Targeted mapping focussing on areas where there is urban growth pressure and/or demand for rural lifestyle subdivision.

Summarised comments/sentiment:

Q3

Long Text

Further from my previous comment, we could have sold sections of our property 10 times over - we were waiting for the bright line to pass. That has now passed, but not before the government put their hold on rural developments. There is not just pressure for rural lifestyle blocks, there is specific pressure for lifestyle blocks in our area.

17 April 2024

Terry Blumhardt

[REDACTED]

[REDACTED]

Support from Terry Blumhardt for the Land Search and Rescue NZ submission to the Horizons Regional Council Long-Term Plan 2024-34. By Horizons providing financial support to the seven Land Search and Rescue groups in the Horizons region. With the purpose for assistance with equipment, training and other operational expenses over and above what the national organisation can currently provide.

Land Search and Rescue Horowhenua, along with the six other groups within the Horizons Region provide rapid and tangible support not only to those undertaking recreational activities, but also to other more vulnerable members of the community who may become affected by various challenging circumstances caused by their cognitive diversity.

These seven groups have needs for equipment, training and operational expenses over and above what the national Land Search and Rescue organisation can provide. The additional support and security through a Horizons Regional Council contribution will in return support the work of local volunteers in their communities and strengthen the safety net these community-based volunteers provide. The funding will be used to support the local group and local members at a local community level.

It is costly to safely equip and train a Land Search and Rescue volunteer ready for field operations. Additionally Land Search and Rescue volunteers support the lead agency (Police or Rescue Coordination Centre) with an incident management capability. This includes a range of costly technology and equipment (i.e. computers, scanners, printers, data projectors, communication equipment, mapping software etc....).

Providing support to young, old and vulnerable people in our communities through the Safer Walking and Wandersearch programs also requires specialist equipment and resources and in return provides assurance and care in our communities.

There is an acknowledgement that Horizons Regional Council faces many challenges in a post Covid environment. A modest contribution from ratepayers will support the efforts of community-based emergency services volunteers, it will support the provision of a safety net and continue to generate positive and tangible benefits for our communities, residents and visitors.

Best regards

Terry Blumhardt

Makirikiri Flood Scheme

I have deep concern regarding the way the Makirikiri Flood Scheme is being managed.

The last three years there has been no meaningful communication in regards to scheme works or a plan for the management of our scheme.

The actual works completed in our scheme appears to be lowest priority - when/if there is any attention paid to our scheme, most of the rates seem to be spent on Horizons oversight and re training people to get familiar with the scheme.

Should we as the ratepayers bear the burden of the high staff turnover?

I suggested writing an operating manual (several times to reduce the loss of productivity when a staff member leaves but to date three years later there has still been no progress on this.

Our rates are now accumulating in reserves - I do not feel it is appropriate for Horizons to perform the function of a bank.

I look forward to a meaningful response on this matter

Palmerston North Search and Rescue

[REDACTED]

[REDACTED]

Support from Palmerston North Search and Rescue for the Land Search and Rescue NZ submission to the Horizons Regional Council Long-Term Plan 2024-34 by Horizons providing financial support to the seven Land Search and Rescue groups in the Horizons region. With the purpose for assistance with equipment, training and other operational expenses over and above what the national organisation can currently provide.

The seven groups resident in the Horizons region have needs for equipment, training and operational expenses over and above what the national Land Search and Rescue organisation can provide. The additional support and security through a Horizons Regional Council contribution will in return support the work of local volunteers in their communities and strengthen the safety net these community-based volunteers provide. The funding will be used to support the local group and local members at a local community level.

It is costly to safely equip and train a Land Search and Rescue volunteer ready for field operations. Additionally Land Search and Rescue volunteers support the lead agency (Police or Rescue Coordination Centre) with an incident management capability. This includes a range of costly technology and equipment (i.e. computers, scanners, printers, data projectors, communication equipment, mapping software etc....).

Providing support to young, old and vulnerable people in our communities through the Safer Walking and Wandersearch programs also requires specialist equipment and resources and in return provides assurance and care in our communities.

There is an acknowledgement that Horizons Regional Council faces many challenges in a post Covid environment. A modest contribution from ratepayers will support the efforts of community-based emergency services volunteers, it will support the provision of a safety net and continue to generate positive and tangible benefits for our communities, residents and visitors.

✓ The Chairperson
Horizons Regional Council
Palmerston North

cc Wanganui Chronicle

cc Minister of Local Government

Ten Year Plan 2024 – 2034

The following are my comments regarding your Ten Year Plan.

Bus Service

Prior to 2017 the Government GPS policy on subsidies was that one had to prove that the public Transport method would reduce congestion on the roads. In 2017 the Labour Government changed the policy of proof, to opening the flood gates. The new National lead Government GPS policy has removed all subsidies for Public transport, footpaths and cycle ways.

The bus service in Wanganui has done the exact opposite to what one would expect and added to the congestion on the roads and air pollution.

Both HRC and the Whanganui District Council are promoting a new high speed more frequent service (Option 1) in the HRC long term planning document.

That comes at a considerable cost ref appendix 1 attached.

The transport levy for my property would change:

- from \$57.68 2024
- to \$222.28 2027

A property on **St John Hill** with a capital value of \$1.750,000:

-from \$190.40 2024
- to \$733.95 2027

These charges high light the need to change the Passenger Services Levy from a \$100,000 capital value to a UAGC (per house hold or Uniform Annual General Charge.)

The HRC Transport recovery policy is 50/25/25

That is 50% Central Government (LTNZ subsidy)

25% HRC (Rates)

25% Passenger fares

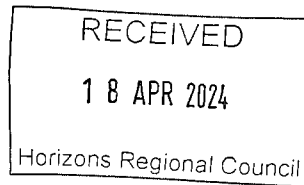

Bus service costs for 3 cornwall Road

	cap value	per 100k	option 1 local	rate		option 1 regional				TOTAL		WDC rates

LTNZ GPS policy 2024

All new subsidies for foot paths, cycle ways and public transport are terminated

Appendix 1

16th April 2024

✧ The Chairperson
Horizons Regional Council
Palmerston North

cc Wanganui Chronicle

cc Minister of Local Government

Ten Year Plan 2024 – 2034

The following are my comments regarding your Ten Year Plan.

Bus Service

Prior to 2017 the Government GPS policy on subsidies was that one had to prove that the public Transport method would reduce congestion on the roads. In 2017 the Labour Government changed the policy of proof, to opening the flood gates. The new National lead Government GPS policy has removed all subsidies for Public transport, footpaths and cycle ways.

The bus service in Wanganui has done the exact opposite to what one would expect and added to the congestion on the roads and air pollution.

Both HRC and the Whanganui District Council are promoting a new high speed more frequent service (Option 1) in the HRC long term planning document.

That comes at a considerable cost ref appendix 1 attached.

The transport levy **for my** property would change:

- from \$57.68 2024

- to \$222.28 2027

A property on **St John Hill** with a capital value of \$1.750,000:

-from \$190.40 2024

- to \$733.95 2027

These charges high light the need to change the Passenger Services Levy from a \$100,000 capital value to a **UAGC** (per house hold or Uniform Annual General Charge.)

The HRC Transport recovery policy is 50/25/25

That is 50% Central Government (LTNZ subsidy)

25% HRC (Rates)

25% Passenger fares

2. **Membership of Local Government NZ (LGNZ)**

I suggest that your membership be terminated immediately.

It has been reported to me that it spreads Racist and misleading information.

There is no place for this behaviour in our multicultural society. At a recent meeting a member left early because of this behaviour.

The savings would be \$50,000pa plus.

3. **Loan Facility**

Your loan facility of \$71.2m needs to be capped then reduced ASAP

A serious review of all expenditure needs to take place removing all non core business expenditure. ie:

a. **Te Reo translation services**

95% of the population does not understand the language and cannot speak it.

Therefore the whole exercise is a total waste of money.

b. **Any planned holiday by the Chairperson on the Rate Payers needs to be cancelled. ie Wellington, Lower Hutt & Wanganui**

4. **Te Reo Translations Services**

I believe this Division of HRC should be disestablished as 95% of the Rate Payers cannot read it or understand it and therefore become confused and irritated.

That is the reason why Labour lost the last election.

5. **Bushy Park**

The proposed increase in the annual grant from \$20,000 to \$50,000 per year is excessive in a time of financial constraint. I believe it should remain at \$20,000

6. **Iwi Consultation Payments**

As there does not appear to be a separate Ledger Accounting code and no entry in the Annual Account statements, there appears to be an attempt at concealing those payments.

Anyone asking questions are actively discouraged and told, it is not appropriate to ask questions relating to the subject. **Ref appendix 3 attached**

As the Rate payers have neither been consulted nor asked to approve these payments there is something wrong.

A ruling by the Auditor General is now needed to say if the payments are in fact legal.

If the payments are illegal those involved in the authorizing and payment need to be charged with misappropriation of funds.

Those receiving those funds could also be charged.

ie Payments at one stage relating to the North Mole project in Wanganui were \$864,279

Hello Jeffrey,

Thank you very much for your email.

I really appreciate you taking the time to get back to me with an update.

Kind regards

Hi

Thank you for your response. Your response was expected, so the matter will now be referred to the Minister of Local Government and the Auditor General.

Thanks for your time.

J.D.Walsh

Hello Jeffrey,

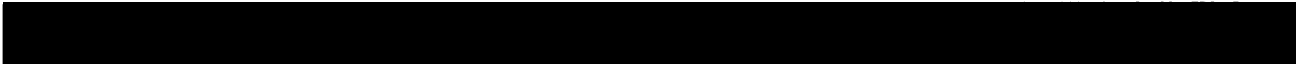

In reference to your request please refer to the below points for your review.

Item	Question	Response
1	How many Co-Governance payments to Iwi have been made for each of the last two years?	There are no Co-Governance arrangements currently at place and Iwi. Consequently, no payments have been provided with
2	How much in allowances were paid to the recipients for each of the last two years	Please clarify who the recipients are and the context.
3	How much in Iwi consultation payments has been paid for each of the last two years	Can the requestor confirm the scope of this question? Is this t specific activity/project? Note: depending on the context of the response, this answer v the requestor.

Yours sincerely

Oriana Mohi

[You don't often get email from [redacted] learn why this is important at [redacted]]

Could you please supply the following information:

1. How many Co-Governance payments to Iwi have been made for each of the last 2 years?
2. How much in allowances were paid to the recipients for each of the last 2 years?
3. How much in Iwi consultation payments has been paid for each of the last 2 years?

As this request is relatively urgent your full cooperation would be appreciated.

J.D.Walsh

Q2

Multi Choice

Option 3: Targeted mapping focussing on land surrounding all existing urban areas (cities, towns, villages).

Summarised comments/sentiment:

Q3

Long Text

Option 3, we believe mapping of ALL land around existing urban areas is required.

Which option do you prefer?

Q4

Multi Choice

Option 1 (council's preferred option): Fund work programme for integrated catchment management.

Summarised comments/sentiment:

Q5

Long Text

Option 1 The Te Awa Tupua Act supports the indivisible nature of the whenua and our freshwater. This legislation must be taken into consideration.

Therefore, we support a whole integrated catchment, holistic approach to the management of our freshwater, environment and coastal areas.

Which option do you prefer?
